

Board Manifesto: Poppy Parmar-Phillips

As the founder of Poppy's Tutoring, I have built a business that prioritises quality, safeguarding, and inclusivity, particularly in neurodiversity and dyslexia support. I am passionate about supporting students and tutors, ensuring that both are equipped to thrive in an ever-evolving education landscape.

If elected to the Board of **The Tutors' Association**, I would focus on the following:

1. **Advancing Professional Development:** I will advocate for more opportunities for tutors to develop their skills, with a special focus on **neurodiversity** and **inclusive teaching practices**. It is essential that we support all learners, particularly those with additional needs, to ensure they can achieve their potential.
2. **Strengthening Safeguarding:** As a tutor and business owner, I recognise the importance of safeguarding in our sector. I love the work recently that you guys have had on the safeguarding policies. I would work to **strengthen safeguarding protocols** across the board, ensuring all members adhere to the highest standards of child protection.
3. **Promoting Inclusivity:** The future of tuition should be **inclusive and accessible** to all students. I am committed to championing inclusivity, especially for neurodivergent learners, and promoting tuition as an integral part of their educational journey.
4. **Streamlining Administration:** I would explore solutions like **TutorCruncher** or similar platforms to **reduce administrative burdens** on tutors running agencies. This will enable them to focus more on ensuring their teams are well-trained in safeguarding, new teaching methods, and providing the best lessons possible.
5. **Networking and Community Building:** The strength of TTA lies in its community. I will work to expand networking opportunities, ensuring that members can **connect, share insights, and collaborate**, strengthening the wider tutoring community.
6. **Raising the Profession's Profile:** I will continue to champion the tutoring profession, ensuring that tutors are recognised for their invaluable contributions. I believe the **TTA** can be a leading voice in advocating for professional standards, integrity, and innovation.

I am committed to ensuring that **The Tutors' Association** remains at the forefront of our industry, fostering a professional and supportive community for tutors across the UK.

Vote for me to help shape a brighter future for tutoring, where every student has the chance to succeed, and every tutor is empowered to do their best work.
