- Author, 5th Global Conference on Innovation in Education
- Finalist, EducationInvestor Awards 2026 (Market Entrant of the Year)
- Author, UK Education Guide for Hong Kong Families
- Education Writer, Hongkonger Magazine

## *Why You?*

**I believe I can serve The Tutors' Association by bringing a balanced, practitioner-led and forward-looking voice to the Board.** As both an active tutor and a growing education provider, I understand the realities across the sector – from independent tutors to those building scalable provision. I would represent members with a practical perspective, ensuring decisions remain relevant, inclusive, and aligned with the evolving needs of tutors.

My work has been recognised through contributions to wider educational discussions, including speaking at the London International Conference on Education (LICE 2026, Oxford University) and the Global Conference on Innovation in Education. I am also the author of a UK Education Guide supporting families navigating the system, reflecting my commitment to contributing to education beyond the classroom.

Alongside this, I have built and supported a growing learning community through Ascend Education. Through voluntary GCSE Maths and Physics sessions and ongoing engagement with families, I have seen the importance of accessibility, trust, and connection. I would bring this perspective to the Board – contributing constructively and supporting a strong, inclusive and forward-looking tutoring sector.

## IMPACT.

I will work to elevate the professional standing of tutoring within the wider education system. Drawing on a broader international perspective, I bring a fresh view that highlights the positive role tutoring can play in supporting student achievement and confidence. I will support efforts to strengthen public understanding of tutoring and position the sector as a trusted and valued partner in education.

## INSIGHT.

I will represent tutors by bringing first-hand, practitioner-led insight into Board discussions. As an active tutor, I understand classroom challenges, student needs, and parent expectations, and will ensure that decisions remain grounded in real teaching experience.

## INNOVATION.

I will support tutors in adapting to a rapidly evolving landscape shaped by digital tools and AI. By promoting practical strategies and responsible use of technology, I aim to help tutors enhance their teaching while maintaining strong educational standards. I represent tutors who are committed to improving their craft, supporting diverse student communities, and navigating a changing educational landscape.
