

JAMES FENWICK

TTA Board Candidate | Fenwick Tutoring | IB & IGCSE Specialist

MY VISION

If elected, I will champion two priorities to move our profession forward:

1. Practical AI Training for Tutors

Move past generic AI answers. Teach tutors to build custom pedagogical tools — specialised GPTs, interactive apps, and more. We are the experts in pedagogy. We need to learn to use AI to avoid being replaced by it.

2. Expanding TTA's International Footprint

Tutoring is now borderless. I want to leverage my IB and IGCSE experience to extend the TTA into Europe — building partnerships, attracting overseas members, and opening new business avenues for UK tutors.

PROOF OF CONCEPT

As a private tutor, it's hard to scale impact. I build tools that help the wider community:

700+ Users

Formula Trainer Web App

Interactive tool isolating micro-skills for IB & IGCSE Physics and Maths students.

[Try Formula Trainer](#)

2,000+ Queries

Custom GPTs

Bespoke AI tools including the IGCSE Maths Dyscalculia Helper and IB Physics Question Helper.

[IB Physics Helper](#)

[Dyscalculia Helper](#)

1,000+ Uses

Interactive HTML Animations

Physics simulations for complex concepts like electromagnetic induction.

[View Simulation](#)

200,000+ Views

Educational TikTok Content

Short-form physics videos reaching a wide audience and driving student engagement.
